PREFACE.

THIS Directory contains many new names and other data. The number of names in the last General Directory of Weymouth was 2,870. In the present volume we have printed 3,150—a gain, since the last issue, of 280 names. In Quincy, we printed 2,339 names in the Directory of 1870-1; and now we print 2,550—a gain of 213 names. This indicates an increase of about ten per cent in the population of Weymouth and Quincy in two years, making the present population of Weymouth about 10,000, and that of Quincy somewhat over 8,000. We have found many hundred changes in location, names of business firms, &c. To our patrons [and all our friends, we present our sincere thanks for all their favors. It is they, that have produced the book. *The work* we have done faithfully. D. D. & Co.

THE
WEYMOUTH DIRECTORY.
1873.

WEYMOUTH.

WEYMOUTH, the *Wessagusset* of the Indians, was incorporated in 1635. It lies fourteen miles south-east from Boston. Fore River is on the north-west, and Back River on the south-east. This was formerly a great farming town, noted for its excellent cheese. In 1800 it contained about 1,800 inhabitants. It took its name from old Weymouth, in the Western part of Dorsetshire, Eng., on the river Way. Probably many of its earliest inhabitants came from old Weymouth. In the history of that old Saxon town are similar names, as Weston, White, Morton, Pearce, Baker, &c.

The Hon. Christopher Webb recorded, that in 1634, some settlers came from Weymouth in England, having Rev. Mr. Barnard for their pastor, who was a Non-conformist. He preached here about eleven years.

On the 6th of May, 1635, Joseph Hull, from England, with twenty-one families, settled in Weymouth. He represented the town of Hingham in the General Court, in 1638, and left Weymouth in 1639. Next came Thomas Jenner in 1636. He got into trouble with his people in 1637, but the neighboring ministers met and reconciled matters. In 1640, Mr. Jenner represented the town in the General Court, but soon after removed from the place.

There were three clergymen living in Weymouth about 1637, viz., Mr. Jenner, Mr. Lenthal, and Mr. Hull. Next came Samuel Newman, in whom the people united and ceased their commotions. Mr.

Newman was a graduate of Oxford University in England. After preaching here four or five years he removed to Rehoboth, and there died in 1663.

Thomas Thacher, born in Salisbury, Eng., in 1620, succeeded Mr. Newman in the ministry here, being ordained Jan. 1644. He preached and dwelt in the town about twenty years, after which he removed to Boston, and became the first pastor of the Old South Church, Feb. 16th, 1670. He was a very able man, and beloved by the people. He was ordained here, but all his predecessors received their ordination in England.

Samuel Torrey, born in England, son of Capt. Wm. Torrey, came over with his father in 1640, and was educated at Harvard University.

He died in 1707, aged seventy-five, and in the fifty-first year of his ministry, forty-three of which were in Weymouth. He was chosen President of Harvard College in 1684, but declined the office. Mr. Torrey was a very learned and accomplished man, and his memory was much cherished by his people.

His successor was Peter Thacher; and then came Thomas Paine, of Barnstable, ordained in 1719, who went to Boston in 1734, but at his decease was buried in Weymouth.

The next minister was William Smith, elected in 1734 to take the place of Mr. Paine. Mr. Smith was the father of President John Adams' wife, the mother of John Quincy Adams. Mr. Smith died in 1783, aged seventy-seven, and in the forty-ninth year of his ministry at Weymouth.

The succeeding ministers, down to 1839, were reported in the sketch in the last Weymouth Directory of 1870.

The first meeting-house stood on Watch-House Hill, about 150 rods north of the depot in North Weymouth. This hill is now called "Burying Hill."

The Soldiers' Monument, of which we gave an illustration in the last number of this Directory, erected in the cemetery at North Weymouth, was dedicated July 4th, 1868, with imposing ceremonies, many people being present from all the country around and several of the principal cities of the State. A great many brave men went from Weymouth, and

gave their lives for the preservation of the Union in the late war. Their names are engraved on the tablets of the monument.

The chief business of Weymouth at the present time is the manufacture of boots and shoes. The local merchants, builders, nail manufacturers, &c. are also doing much to increase the wealth and beauty of the town, as may be seen by their advertisements in this volume.

We would invite special attention to our patrons, who so generously support this work, considering it a very useful and needful institution of the noble old town. The population of Weymouth is fast increasing, and now must be not less than 10,000.

Medicated baths given, Electricity used; Catarrh, Neuralgia and Scrofula Sores treated with good success. A specialty made of Female diseases. Mrs. Dr. Tuck has devoted many years to the study and cure of these diseases, and is convinced by the success that attends her practice that her method of treating diseases is natural and practical, and of course must be successful. This Retreat and Home has been established because patients can be more readily and permanently benefited, and also can learn how to care for themselves in future, according to the requirements of personal constitutions.

The comforts of home, good care and rest, (nature's great restorer) will be secured to all who come, with Botanical remedies, natural food, soft water, sun baths, used as each case may demand, to purify and invigorate the system.

Mrs. Dr. Tuck will still continue her office practice at 28 Winter Street, Boston, Room 16, the FIRST three days of each week, from 9 A.M. to 4 P.M.

Where can be found the **Ladies' Abdominal Supporter**, (her own invention) a supporter based upon Hygienic principles; **Elastic Bands**; **Shoulder Braces**; her **Invalid's Corsets**, the "**Eugenic**," the improved Female **Syringe**; and all other kinds. She has a **New Truss for Umbilical Ruptures**, easy to wear, giving support to the whole abdomen.

The ARLINGTON PORTABLE RANGE.

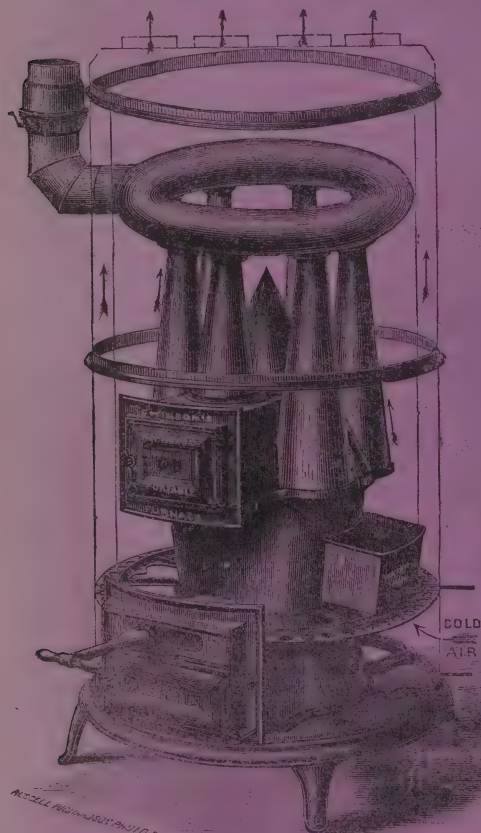

CHILSON'S NEW RANGE. 1872.

The first sight of this new and splendid Portable Range will convince all that its equal has never been seen—in its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets and Reservoirs; also, Hot water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

Housekeepers will be pleased with this PORTABLE RANGE.

CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES.

TEN SIZES.

Patented in the United States, England, and France.

The high reputation this furnace has acquired, in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable Furnaces will show at a glance to any intelligent mind the wonderful heating powers a cluster of tapering radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke-tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up Furnaces and Ranges, and the ventilation of buildings in every part of the country.

Nothing but strictly first-class work is manufactured by me.

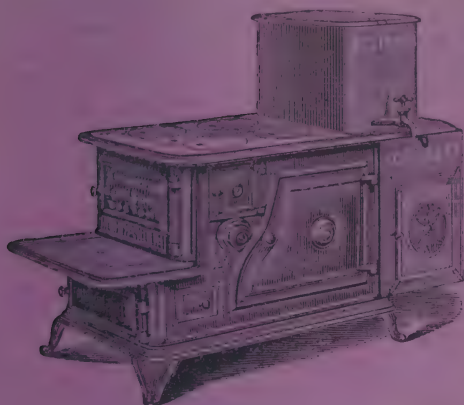

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, &c. Nothing but what is strictly first-class work is manufactured by me.

Warerooms, 99 and 101 Blackstone Street, Boston.
Foundry at MANSFIELD, MASS.

GARDNER CHILSON.

THE ARLINGTON COOKING STOVE,

CHILSON'S NEW STOVE—JUST COMPLETED.

Five minutes' examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT, and DURABLE, and in EVERY RESPECT the BEST COOKING STOVE ever made. Without exception, the WATER FRONT FIXTURES for heating water, for BATH BOILERS, &c., are the MOST PERFECT EVER INVENTED. DO NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, with or without extension Tops, Reservoirs, Hot Closets, &c., &c., for HARD or SOFT COAL, or WOOD, kept constantly on hand.

CHILSON'S PATENT Elevated Double-Oven COOKING RANGE, HAS BEEN REMODELLED AND GREATLY IMPROVED.

This celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, &c., with or without water backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others—

1st—In its entirely new principle for circulating the heat around either oven separately, or both ovens as desired.

2d—In its heavy fine castings, and thorough workmanship.

3d—In its GREAT ECONOMY OF FUEL.

4th—In its quick and even baking ovens.

5th—In its self-regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, &c.

ALSO,

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, &c.

Nothing but what is strictly first-class work is manufactured by me.

Warerooms, 99 and 101 Blackstone Street, Boston.

Patented Oct. 17, 1871.

THE CALKINS WASHER

Is as perfect for a Washer as a Wringer is for a Wringer.

The universal testimony is: "This machine is perfect in conception, and has secured the Greatest Possible Amount of Washing Surface in the Least Possible Compass, and is Compact, Light, Easily Handled, and to see it is to know that it will do the work with Ease, Economy, and Efficiency."

Those who once see this Machine work, throw aside the lumbering, unwieldy, useless machines, which have signally failed to accomplish the object promised in prominent and loud-sounding advertisements.

The price — another inducement to purchasers — has been placed so low, that it is within reach of almost every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

\$7.50

is all that is asked for this great Labor Saver.

THE
QUINCY DIRECTORY.
1873.

QUINCY.

THIS town was formerly a part of Braintree, in Norfolk County, which town was settled in 1625, and then called Mount Wollaston, from the name of its founder.

About the year 1800 a writer says, "Quincy has 1,081 inhabitants, who are mostly farmers, but large quantities of boots and shoes are manufactured, for exportation. In the town is an Episcopal church, and a Congregational church. Here resides, in ease and dignity, the venerable Christian patriot, John Adams, late President of the United States."

In 1625 Capt. Wollaston, with about 30 others, landed on this shore near the Mount, since called by his name, and here they settled. The notorious Thos. Morton was of this band, and proved such a jolly, vain fellow in a serious time, that the staid, earnest Puritans set him in the bilboes, and sent him home to England to improve his manners. Morton called his home "Merry Mount," and made merry with the sanctionious ways of the Pilgrims. This Morton wrote against our forefathers, and plagued them both in England and here, up to his last days, in 1643. The name of Braintree originated from the fact that a company came in 1632 from Braintree in England and settled at Mt. Wollaston.

At their request Braintree was called after the old town, being incorporated by the General Court in 1640. This ancient name was resigned, and a new one taken in honor of Col. John Quincy, who had occupied the Mt. Wollaston farm. The first Adams here was Henry,

who "took his flight from the Dragon persecution in Devonshire, England, and alighted at Mount Wollaston, as early perhaps as 1630." The first Quincy was Edmund, an honorable man, but dying early. He left posterity to increase the glory of his name.

Here also dwelt the great families of the Cranches and Hancocks, of national fame.

The old church belonging to the ancient society of Braintree, became in 1792, the first society of Quincy, on the incorporation of the town. This church was taken down and the present elegant stone edifice erected in 1828. Here the two Presidents were baptized and worshipped all their lives, and the father of our Revolutionary John Hancock was pastor of the church. Rev. Mr. Hancock was ordained Nov. 2d, 1726. On the 25th May, 1840, being the second Centennial anniversary of the settlement of the town, there was a great celebration, and a commemorative discourse was preached by Rev. George Whitney. This has been published, and is dedicated to the young men of Quincy.

Mr. Whitney was the pastor of the old church. His discourse is philosophical. He says of the Pilgrims, "They defended the principle of self government, vested the right of electing their own magistrates in the hands of the people. This also breathed into the civil condition the breath of life. They recognized all the right of individual action they felt to be consistent with safety; and that set all the wheels of industry in motion, on which public prosperity relies so much;" and again, "they founded the free schools, and thus rocked an infant Hercules, as among the first born children of the youthful commonwealth. We may pardon a few imperfections to men, who, in a dark age could accomplish such things as these."

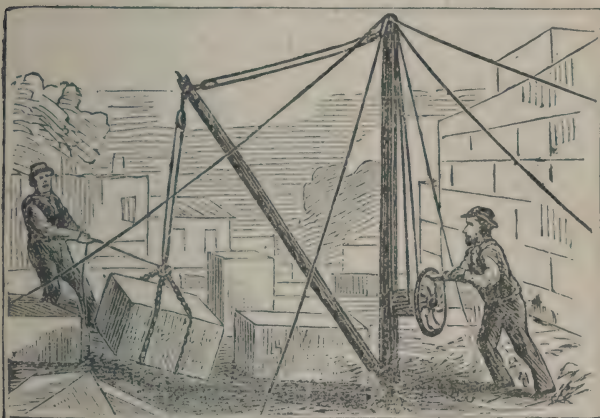

The part of Quincy called Wollaston Heights is now becoming a regular town, being laid out in good modern style with broad streets and public parks. It is a very pleasant location for country homes of business men in the great cities around, being near the Wollaston Heights Depot of the Old Colony and Newport Railroad.

The advertisements in this volume will show clearly the nature of our manufacturing and commercial

interests. Granite, "Quincy Granite," is the staple production, and it is more valuable than mines of gold. Out of this, by the stalwart arms of our citizens, are hewn the gorgeous palaces and tombs of the princes of the land. It is sent on the wings of steam, as well as of the winds, to every quarter of the globe, and thousands of years hence, these works of our skilled industry will be the wonders of the great past, as are the hoary columns of old Thebes and Karnac.

E. D. SPEAR, M. D.
The Old Indian Doctor,

So much celebrated for his remarkable cures.

713 Washington St., Boston.

Dr. Spear may be consulted upon ALL diseases.

DR. SPEAR has issued a small work, in which he says: In preparing the Medical Hand-Book for the afflicted and the public at large, which is designed to take the place of the more bulky "Family Physician," the author and publisher has several objects in view. The first was, to bring it into a more portable size, by eliminating a large amount of reading matter, and omitting many testimonials received in his earlier practice, thus meeting the demand of this fast and busy age, when few can stop and read long homilies on any subject. But the principal and most important object was, to bring to the notice of the public a sample, at least, of the great mass of certificates and testimonials he has received within the last few years, and is now constantly receiving. To these he bespeaks the careful attention of the reader; and he refers to them in no boasting spirit, but simply as evidence that his study and effort to relieve suffering humanity have met with gratifying success. In this regard he can cheerfully submit his claims as a successful physician to that truest and most sacred of all tests. "By their fruits shall ye know them."

It may be thought by many hardly necessary to say, after communicating with the public so often and for so long a time, that his treatment of disease is peculiar to himself; but for the benefit of those just coming upon the stage of action it may very properly be dwelt upon for a moment. Suffice it to say, in brief, that he has discarded many of the crude and absurd notions that obtained among practitioners of past ages, and clung to by many with surprising tenacity at the present day; and after careful study and diligent research into the various systems of practice, has adopted a system which has common sense combined with science as its basis. Upon this sure foundation, by the full use of his reason and judgment, he has drawn from Nature those pure and safe remedies, which, though all-powerful in removing disease and bringing to the patient joyous and gladsome health, leave no lifelong sting behind. To the sick, therefore, he feels authorized to speak words of encouragement and hope.

As will be seen by reading the testimonials, many who were near the gates of death, and given up as lost, have been rescued by his hand and restored to health. Others who are now suffering, with little hope of relief, he believes may also be made to enjoy the rich blessings of health. The afflicted then, of whatever nature, he invites to his office—

No. 713 Washington Street, Boston,

with the assurance that his utmost skill shall be exerted in their behalf.

The Medical Hand-book may be had FREE. Enclose stamp.

"The Senate need only go to a simple Dictionary; I will not go to a law book, or any work on the law of Nations, but I take what I think is the **BEST AUTHORITY**, Worcester's Large Dictionary."

HON. CHARLES SUMNER,
in U. S. Senate, Feb. 21, 1872.

"We concur with Senator Sumner, in preferring the honest, scholarly, and trustworthy Worcester's Dictionary." — *New York World*, Feb. 23d, 1872.

"An almost indispensable aid to a correct delivery of our thoughts, whether in writing or speaking."
Prof. JOSEPH HENRY,
Secretary of the Smithsonian Institute, April 13th, 1872.

"Worcester's Dictionary has constantly lain on my table for daily use, and Webster's reposed on my shelf for occasional consultation."

OLIVER WENDELL HOLMES.

"It should be placed on the centre table for daily consultation and study in every family." — *New York Independent*, Jan., 1872."
